

Monday 8th June 2020

LO: To talk about some of the Key Workers who help us.

To be successful I must be able to:

- *Identify some Key Workers.*
- *Discuss how each Key Worker is supporting the community.*

Key Workers

There are lots of Key Workers who help us.

Can you name any Key Workers?

Have a look at some of the Key Workers who help us. How have they helped you and your family?

Who else are the Key Workers helping?

Do you know what this logo stands for?

It is the logo for the National Health Service.

Can you name some of the NHS job roles?

Here are some of the job roles:

Doctors, Nurses, GP Doctors, Paramedics, Dentists, Health Care Assistants, Porters, Cleaners, Receptionists, Administrators.

Can you name anymore? How do these Key Workers help us?

Delivery

The food and essentials we need from the shops are delivered to the shops in a lorry.

Some people may get their food delivered to their house. A man or lady will drive a van to your house and deliver your shop.

Shops

The shops are open for us to buy food and the essentials that we need.

Who works in a shop?

How do they help us?

School and Nursery Staff

Whilst school is closed for some children, some of us are still at school.

The Teachers, Teaching Assistants, Administrators, Site Managers and our Cleaners are all still working.

We are really glad that you are still able to do school work at home with your family members.

We can't wait to see you all when we are back.

The list of Key Workers is very long. Can you have a look at some of the other Key Worker roles?

Think about how important the Key Worker roles are. How do these roles help you and your family?

How do Key Workers help the country?
