

Week Commencing 8th June 2020

LO: To create a junk model

To be successful I must be able to:

- *I can use different types of materials*
- *I can use different tools*
- *I can use the tools safely*

You are going to create a junk model for someone who has helped us. You can make it big or small - depends what size boxes you have.

How do we hold scissors safely?

What other tools will we use?

Please take a photo of your vehicle - we can't wait to see how you made it and what junk you used.

Email it to your teachers:
