

Week Commencing 13th July 2020

LO: To create an under the sea model.

To be successful I must be able to:

- I can paint my shoebox
- I can create colourful fish and other animals
- I can decorate the sea model

You will need a box to use for your model. You will need to paint it first of all - what amazing blue and green colours can you create. Whilst this is drying you can create your underwater world animals and other things you might see under the sea.

What you put in your underwater world?

Please take a photo of your under water world. We can't wait to see what you have included.

Email it to your teachers:
