

North Wolds Federation Intent Statement

Languages

Within the North Wolds Federation, we want our children to be exposed to the wider world through the teaching of an additional language – French. It is important that they are provided with opportunities that enable them to think outside of West Lindsey and have broad aspirations for their futures. Gaining knowledge about France, the French language and French culture will stimulate a curiosity of Europe, as France is our closest European neighbour. Furthermore, pupils may aspire to study, work or even live there later in life.

As the local secondary schools study French, our pupils will be well prepared, in KS2, for the next step in their French language development. Through fun engaging lessons provided by our chosen scheme - Rigolo, our children will be taught knowledge, skills and vocabulary through high quality teaching, songs, rhymes, actions and lots of visual stimuli. In their French lessons, our children will cover a broad range of topics that will help form secure foundations before continuing on to KS3.
